

WELCOME TO YOUR HOLMES APPROVED HOME!
HOMES AT THE VINE WILL BE BUILT TO STANDARDS APPROVED BY MIKE HOLMES!

The Holmes Approved Homes program recognizes builders who share the same building principles as **Canada's Most Trusted Contractor, Mike Holmes**.

Homes built to the Holmes Approved standard are above and beyond the industry standards. These homes are built above the minimum building code and don't just look good on the surface, **they are even better behind the walls in the places you don't see.**

What Will I Get with a Holmes Approved Home?

Better Inspections. Your home will undergo a series of home inspections, including on-site field reviews by approved Mike Holmes Inspectors, providing you with a transparent record of the quality and value that exists behind your walls.

Local municipal inspectors provide inspections ensuring the minimum building code is being met. **A Mike Holmes inspector will be looking for proof that we are following through with our promise to build you a home that exceeds the building code.**

The Best Techniques. Tested building techniques and practices that have consistently proven their value and benefits will be used in the construction of your home to beautifully support and protect your investment, today and tomorrow.

A Healthier Home. From the air you breathe to the systems you use, your home will be safer, healthier and more durable thanks to superior products and materials incorporated into every feature of your home.

Peace of Mind. The Holmes Approved Homes Program provides confidence in your investment so you can feel secure in your choice of a better, more durable home that's built to last.

Mike Holmes is all about making it right and we are proud to offer homes built to his standard!

**NEW HOMES.
BUILT RIGHT.**
